CAMPUS HIGHLIGHTS

Leadership Bootcamp

Our campus hosted the **Leadership Bootcamp** for the second year in a row. It was an inspiring and enriching day, which featured a powerful panel discussion as well as impactful speeches by our Founder, **Dr. Tristha Ramamurthy**, and our chief guest, **Mr. Aprameya Radhakrishna**. Ekya's leadership bootcamp is curated to cultivate a culture of forward-thinking leadership. The session was livened up further as Student Council members gave impressive presentations, which showcased their confidence and vision for the future.

CULTURE AT THE CAMPUS

Celebration of Learning

As we gear up to open our very first school year, establishing the right is important. It's said, 'start right, stay right' — so how you begin shapes how you grow. We believe creating a positive environment is essential for the growth, learning, and success of our students.

At Ekya Nava, we believe a classroom's design is the silent teacher. Our culture emphasises creating vibrant, organised physical spaces that speak volumes. We believe in making learning visible and celebrating our students' journeys.

By intentionally designing our classrooms and display boards, we are building more than just walls; we are building a sense of belonging. Showcasing student work and fostering an inclusive, welcoming atmosphere make students feel seen, valued, and respected. This powerful visual environment further reinforces our positive school culture as it sparks curiosity amongst students, creates an encouraging environment, and empowers each and every student to succeed.

PROFESSIONAL DEVELOPMENT

We have been conducting a series of focused bootcamps for staff members on leveraging AI tools, exploring practical applications of AI in day-to-day workflows across roles. Our Senior School educators participated in a Professional Development Day to upskill themselves on 'Using AI Tools in Differentiated Instruction.' The session focused on practical strategies to personalise learning pathways using AI-powered tools, ensuring every student's needs are met. We conducted a three-day in-person [workshop and field immersion](#) for candidates of our Postgraduate Diploma in Early Childhood Education. Held at the CMR University City Campus, the experience combined hands-on learning, peer collaboration, and real-world application of theory.

We have officially opened applications for the [ReThink Educator Certification Program](#), a three-month virtual learning journey designed for aspiring and in-service educators to deepen their understanding of progressive education practices.

LEADERSHIP CORNER

Nurturing Young Minds: The Foundation Years

The early years of a child's life are a canvas of endless possibilities, vibrant colors, and delicate brushstrokes. At Ekya Nava, we recognise the significance of these formative years and have crafted a curriculum that paints a masterpiece of holistic development.

Our approach is like a symphony, harmonising intellectual curiosity, social-emotional intelligence, multiple intelligences, and physical growth. Every note, every melody, and every rhythm is carefully designed to foster a love for learning that resonates throughout their lives.

As young learners embark on this journey, they will discover the joy of exploration, the thrill of discovery, and the satisfaction of accomplishment. Our curriculum is a masterful blend of academic rigor, creative expression, and social responsibility, which will empower them to become:

- Critical thinkers who question, analyse, and solve problems
- Explorers who venture into the unknown, seeking new knowledge and experiences
- Independent learners who take ownership of their growth and development
- Responsible individuals who respect themselves, others, and the environment

Developing Essential Skills

Our **Physical Education (PE) program** is designed to enhance gross motor skills, laying the foundation for activities like walking, running, jumping, and balance. Through engaging exercises and games, learners develop coordination and control, building confidence in their physical abilities.

In addition to PE, our learners work with manipulatives like beads, blocks, puzzles, and more to refine their fine motor skills. These activities help develop precision and dexterity, essential for daily tasks like writing, dressing, and using tools.

Reading and Writing

Our **Jolly Phonics Program** introduces children to reading and writing through a systematic, synthetic phonics approach. This engaging program helps learners develop essential literacy skills, building a strong foundation for future academic success.

Early Numeracy

Our early numeracy activities focus on **play-based learning**, introducing children to fundamental mathematical concepts like counting, sorting, pattern recognition, and problem-solving. Through everyday experiences and interactive games, learners develop a strong foundation in numeracy, setting them up for future success in mathematics and beyond.

By combining physical activity, fine motor skills development, phonics, and numeracy, we provide a well-rounded education that fosters growth and development in all areas.

At Ekya Nava, we cultivate a culture of collaboration, where peers learn from and support each other. Our **Montessori-inspired approach emphasises child-centred learning**, promoting independence, freedom within limits, and respect for each child's natural development.

Our state-of-the-art infrastructure and expertly designed experiences provide a rich ecosystem for growth, where learning is a lifelong journey, not a destination. As children dive into this ocean of learning, they'll develop a deep love for knowledge, a strong sense of self, and the skills to navigate life's challenges with confidence and joy.

At Ekya Nava, we're committed to nurturing young minds, empowering them to become joyous and happy learners for life. Join us on this incredible journey, and let's shape the future together!
